#### **ARK Performance MAP Policy**

As the world's leading aftermarket auto parts manufacturer, ARK Performance is focused on maintaining high margins for our dealer/distributors network. In recognition of the investment in time and resources required for our high-quality dealer/distributors to provide the level of customer service and product knowledge expected from our customers, ARK Performance is committed to enforcing policies which allow our resellers to maintain high profit margins through the sale of our products. ARK Performance has an established Minimum Advertised Price (MAP) Policy that an Authorized Reseller must follow for the advertising and marketing of ARK Performance products. All ARK Performance Authorized Resellers must agree to the terms and conditions of the following MAP Policy.

#### **ARK Performance's MAP Policy Guidelines for ARK Performance Products**

MAP pricing for all ARK Performance products can be found on the attached current price list and will be regularly updated and sent to you every quarter or whenever there are any price and/or product changes. All advertised prices must be at or above MAP for all ARK Performance products if a MAP price has been established by ARK Performance. Resellers are not required to list prices in advertising. If a price is listed in an advertisement it must be at or above MAP. Other statements such as "call for price" or "call for quote" are acceptable and permitted as long as the MAP policies are adhered.

Resellers are also responsible for ensuring their ARK Performance product pricing is at or above MAP on internet search engines. Resellers are free to set the actual resale price of any product as long as it is at or above MAP price given the most recent publication of the price list. ARK Performance's MAP policy for all ARK Performance products apply to advertising placements, including but not limited to: print ads (inserts, magazines, newspapers, catalogs, mail order catalogs, etc.), broadcast (radio and TV), direct mail, faxes, internet placement with third parties (banner ads, broadcast emails, destination pages, third-party sites), internet placements on resellers own website, and any flyers, posters or coupons.

From time to time, ARK Performance may permit resellers to advertise MAP Products at prices lower than the MAP price. In such events, ARK Performance reserves the right to modify or suspend the MAP price with respect to the affected products for a specified period of time by providing advance notice to all resellers of such changes.

#### **Failure to Comply with the MAP Policy**

At the sole discretion of ARK Performance, failure to comply with MAP, intentional and/or repeated failure to abide, may result in the immediate loss of Authorized Reseller status and your ability to purchase all ARK Performance products both direct as well as through distribution.

#### **ARK Performance will utilize the following steps to resolve MAP violations:**

1. Any and all resellers selling ARK Performance products which have not signed an ARK Performance MAP Policy agreement are classified as Unauthorized Resellers.
2. Resellers of ARK Performance are required to provide a signed MAP agreement from any reseller selling ARK Performance products. Unauthorized resellers should not be sold to or provided a feed from any Reseller whatsoever.
3. Violations from Authorized Resellers will need to be corrected within 24 hours of notification.
  1. First Violation: Authorized Reseller's account will be put on hold temporarily and a written warning will be provided. Any MAP violations must be corrected within the 24 hours of notification. Upon correction and following 30 days of compliance, the violation will then be cleared.
  2. Second Violation: If there is a second violation within 30 days of a previous violation, Authorized Reseller's account will be put on hold for 30 days. After this duration, ARK Performance will review and determine if the account is to be reinstated or downgraded to a second tier reseller.
  3. Third Violation: Should ARK Performance decide to reinstate an Authorized Reseller who has previously demonstrated a second violation, yet violates a third time, the account will be designated as a second tier discount level reseller.

1. An ARK Representative will reach out and the reseller will have a ten business day period to correct any branding issues.
2. If the issue is not resolved within the ten business day period immediately following the violation, another warning will be issued and an additional grace period of five business days will be given.

#### **SHIPPING DAMAGES:**

ARK Performance ensures all products are packed with care to prevent damage during shipping. However, damage may still occur during shipping. Buyer must inspect the packaging and the products carefully upon receiving them, then accept the shipment and notate any damages and irregularities, such as crushed, torn, punctured, or broken parts on both the packaging and the product, on the freight bill or receipt at the delivery driver's presence. Buyer must retain all cartons, packing materials, and damaged products for the carrier's damage inspector to inspect. Do not refuse shipment or return it without approval, because the buyer's right to make a damage claim may be denied. A signed receipt without any notation indemnified the carrier as well as ARK Performance from any further damage claims. Discovery of damages after a clear delivery becomes the responsibility of the customer.

All damages must be notified to carrier and the dealer within 24 hours. In cases of damage with proper notation on receipt, the carrier will determine whether to pay for repair cost or replacement value of the damaged goods after damage inspection. Replacement value is the amount the buyer paid to the distributor and is not negotiable. All disputes about the settlement amount should be addressed with the carrier. ARK Performance, under no circumstances, shall be liable for the damaged product or for subsequent settlement of the claim with the carrier.

#### **AEROPARTS – INSPECTION AND DAMAGE:**

ARK Performance ensures packing of all products carefully to prevent damage during shipping. Unfortunately damages to occur from time to time. Buyer must inspect the packaging and the product upon receiving it and notate any damages such as crushed, torn, punctured, or broken parts on both the packaging and the product itself. Notate the damage on the freight bill of lading or receipt with the driver present. Consignee must retain all packaging, packing materials, and the damaged product for the carrier's inspector to inspect. The damage claim may be denied if consignee refuses shipment or returns it without approval. A signed receipt without any notation indemnified the carrier as well as ARK Performance from any further damage claims. All damages must be notified to the dealer and/or ARK Performance within 72 hours.

In the case that the driver cannot wait for your notation of the damages, notate the following. On the bill of lading or receipt write "driver did not have time for to inspect and notate any damage upon delivery". Then sign for the product and accept the package.

#### **DEFECTIVE PRODUCTS:**

Minor adjustments may be necessary as part of the normal installation process. All carbon fiber and fiberglass products will not sustain heavy force or weight and could be subjected to cracks by such force or weight. ARK Performance has made an effort to produce all its aftermarket products to fit the original factory vehicles as closely as possible. However, like all aftermarket aero, prepping may be necessary for an accurate fit. The buyer needs to perform these steps to his/her satisfaction before installation.
